

The sixth season

of M-Net's Idols is well on its way and the show, broadcast from the Teatro in the Mosaiek Church, Fairlands, has been nothing short of spectacular. The stage looks phenomenal, performers are doing a great job and the

lighting is amazing – well done to lighting designer Joshua Cutts.

"I'm impressed

with the power of the grandMA 2, especially the effects engine," commented Joshua. "It halves my programming time when creating vibrant, versatile looks for all the songs. Idols is great fun, the energy every week is awesome."

"One more thing," he adds, "The Robe ColorBeam 700s are amazing."

The show that

catch Idols on

The following

gear was supplied by DWR Distribution and used for this season's production:

1 x grandMA 2 full size
