

RCF Micro Monitor Speaker MMR 30T

Posted on September 12, 2026

Meet MMR 30T, RCF's ultra-compact full-range wall-mount speaker for indoor and outdoor installations. With its discreet profile, refined finishes, and weather-resistant construction, MMR 30T integrates naturally into architectural spaces while delivering clear, reliable sound for background music and speech. Ideal for hospitality venues, retail stores, offices, shopping malls, leisure facilities, sports environments, and public spaces, MMR 30T combines compact dimensions, elegant design, and simple installation in a versatile loudspeaker for distributed audio systems.

- 10 W power handling
- 101 dB maximum SPL
- 200 Hz – 20 kHz frequency range
- 130° conical constant directivity coverage
- 3" full-range transducer

- ABS enclosure with aluminum grille
- Wall-mount bracket included
- IP55 protection rating
- Integrated 70 V / 100 V transformer
- 2-pole Euroblock connector

COMPACT SIZE, IMPRESSIVE SOUND

Despite its ultra-compact footprint, MMR 30T delivers remarkable performance. Its 3" full-range transducer ensures faithful music reproduction, while 10 W RMS power handling and 101 dB max SPL provide clear sound for everyday applications. With a 200 Hz – 20 kHz frequency range and 130° conical constant directivity, it offers consistent coverage for both background music and speech.

RELIABLE EVERYDAY PERFORMANCE

Quality components and careful acoustic design ensure high fidelity, clear, consistent sound and dependable operation. MMR 30T integrates smoothly with compatible RCF amplifiers using onboard presets, expanding configuration possibilities. It is a smart choice wherever discreet design, premium sound, and long-lasting reliability are required.

EASY INSTALLATION, FLEXIBLE INTEGRATION

An integrated transformer allows connection to 70 V/100 V constant-voltage lines, making it ideal for distributed and multi-zone audio systems. The speaker includes a wall-mount bracket for quick and reliable installation. The 2-pole Euroblock connector ensures simple, secure wiring.

BUILT FOR INDOOR AND OUTDOOR USE

Available in black RAL 9005 and white RAL 9003, it fits naturally into a wide range of interior and exterior designs. The weatherproof, robust yet lightweight ABS enclosure with an elegant aluminum grille makes it suitable for demanding indoor and outdoor installations.
