

# Realizzer 3D Visualisation available at DWR

Posted on May 26, 2016

Nick Britz from DWR

DWR Distribution is delighted to be the new distributor of Realizzer, a 3D Visualization software program.

“I first came across Realizzer at Prolight and Sound two years ago,” said Nick Britz of DWR Distribution. “I loved it straight away. I was very impressed by the way it does realistic designs. It is a fantastic visualizer and is even able to design both lighting and laser shows.”

Realizzer will assist lighting designers to pre-program their shows. “It also helps with selling the concept to clients, by giving the ability to render out high definition Videos” added Nick. “It’s compatible with any console that runs Artnet as well as various 3D drawing programs such as Vectorworks, Cinema4D, 3DStudio Max and SketchUp. We are very excited!”

If you would like to have a demonstration, kindly contact Nick Britz at [technical@staging.dwrdistribution.co.za](mailto:technical@staging.dwrdistribution.co.za) or call him at 072 931 4402.
