

Robe iBOLT demo with DWR Distribution

It's finally here, and DWR is excited to share it with you! Grab your warm jacket and join us for a Robe iBOLT demonstration, the latest from Robe Lighting, on 11 July from 6pm at DWR Distribution. Boerewors Rolls & refreshments will be served.

Book your Spot – <https://forms.gle/8LxGALw3CcY1FKPE6>

The new generation Searchlight and Skyflower fixture makes outdoor lighting statements like never before! With incisive solid, flat field beams, shapes and effects, the sky is your canvas. Highly and actively protected to operate in all environments, iBOLT projections are visible from kilometres away. Such brilliance demands attention!

Specifically designed to generate incredible power, and be perfectly safe to use, we developed the LSW-5TM engine. Its white 500W Phosphor Laser source produces an incoherent beam with an incredible intensity of 120.000 lux @ 100 m.

Everyone is welcome to join us – we'd love to see you there!

Date: 11 July 2024

Time: 6pm

Venue: DWR Distribution, Block C, Unit 1, Kimbult Industrial Park, 9 Zeiss Road, Laserpark, Honeydew.

Bookings online: <https://forms.gle/8LxGALw3CcY1FKPE6>
