

Prolyte Group

Description

Prolyte designs and develops structural solutions for the entertainment and architectural markets, including trussing, staging, roof systems, and more.

Founded in 1991, Prolyte is known for its high-quality products, innovative solutions, and expert advice. The company has introduced several groundbreaking products, such as the conical coupling system, VERTO truss, modular box corners, and complete stage roofs, setting new industry standards worldwide. Customers around the globe trust Prolyte for its experience and expertise.

Since 2019, Prolyte has been part of Area Four Industries.
