

Robert Juliat Unveils New Followspot at PLASA 2014

Posted on September 26, 2014

ROBERT JULIAT

Stand R80, Ambersphere Solutions Area

Robert Juliat will exhibit at PLASA 2014 with its exclusive UK distributor, Ambersphere Solutions, where a new Robert Juliat followspot will be unveiled.

Rumours of a new product from these masters of followspot design have been permeating the industry over the last few months. PLASA 2014 will give visitors the first opportunity to see the new model which has been created to reflect the specific requirements of those working in the touring, live music and large event market – indoors and out.

Designed to complement to Robert Juliat's Grand, Compact & Ultra-Compact ranges, the new followspot is the result of in depth consultation with rental companies and professional followspot operators. Easy to transport, install and maintain, the new model incorporates Robert Juliat's superlative optical and ergonomic qualities into a robust package that beats the rigours of touring. The new followspot is the rugged four-wheel drive complement to Robert Juliat's range of

followspots. "It's a wizard solution that truly is born to be bright!" hints Robert Juliat CEO, François Juliat.

Robert Juliat Sponsors Knight of Illumination Awards

Robert Juliat is proud to announce its support for the Knight of Illumination Awards by sponsoring the event for the second year running. The glittering occasion, now in its 7th year, moves location this year to the Troxy Theatre and promises to be another entertaining evening in celebration of outstanding lighting design. "The Knight of Illumination Awards is an opportunity to showcase some of the best our industry has to offer. Robert Juliat's reputation is built on quality and creativity and we feel it important to encourage and support the pioneers of entertainment lighting by sponsoring these Awards," says François Juliat.

The Knight of Illumination Awards is jointly organized by Clay Paky, the STLD, the ALD, and Ambersphere Solutions.

Robert Juliat will be exhibiting in the Ambersphere Solutions Area on **Stand R80**.
