

# RoboSpot Training, Johannesburg

Posted on May 14, 2024

DWR Distribution takes pleasure in inviting you to a RoboSpot FollowSpot System training session presented by Jaques Pretorius on 18 June from 9 am to 4 pm in Johannesburg.

Jaques will instruct you how to set up the RoboSpot system, pair it with the latest in lighting LED technology from Robe, and then control the fixture seamlessly.

The RoboSpot system allows followspot operators to remotely control up to 12 fixtures simultaneously without the safety concerns and impracticality of placing personnel at the top venues such as stadiums, indoor arenas, concert halls, theatres, TV and film sets.

Stunning visual displays are now possible with as many as 12 perfectly synchronised fixtures following a performer across the stage.

*The cost is R250 per person and includes a light lunch and refreshments. Please note that refunds are not available for courses. If your course registration is cancelled, at least 72 hours in advance, you'll receive a credit for the paid fees, usable for re-registration or rescheduling within one year from the initial course cancellation date. Not showing up without notice does not qualify for the rescheduling credit.*

The training will be held at DWR Distribution, Block C, Unit 1, Kimbult Industrial Park, 9 Zeiss Road, Laserpark, Honeydew.
