Brothers Sean & Robert Hoey with the Dream Sets team, setting up at the Johannesburg Motor Show.

Yes... if you haven't noticed, "Silly Season" has hit many rental companies and what is amazing is when companies stand together to make things happen.

Sean and Robert Hoey, Eben Peltz and their team from Dream Sets have literally not stopped running! In the last ten days (18 – 28 Sep), they have been in and out of 21 venues, of which 70% was set and technical and 30% set only.

"We need to thank a couple of companies though," said Sean. "Mark Gaylard from MGG Productions is almost part of the family and we appreciate his support, technical assistance and crew."

And AV Unlimited as a technical supplier for kit and crew. "It's fantastic working with Guillaume Ducray and his professional team," said Sean.

Then there is Christiaan Ballot and Blond Productions. "We have a great relationship with Christiaan and value our association."

“We could not do what we do without the support of all these guys and others in the industry,” said Sean.

Amazing things are happening; it's as hectic as can be out there. Keep safe, all the best with your shows and take time to breath!
