

Showline SL Beam 500fx Dynamic and fluid effects

Posted on October 13, 2017

Showline SL BEAM 500fx

Pumping up the performance of the SL BEAM range, the Showline SL BEAM 500fx is a superb moving-head luminaire that delivers an exceptional output from its 37 RGBW LEDs. Just like its partner in this category, the SL BEAM 500fx is fast, quiet and extremely versatile.

The effective precision optical design allows the SL BEAM 500fx to function as a beam and as a wash luminaire.

However, where the luminaire really stands out is through its individual pixel mapping and animation, together with a rotating front lens for multi-beam effects.

Philips Showline SL BEAM 500fx

Key features and benefits:

15,500 lumens of output
