

Special Offer | CEDAR sdnx for Sound Devices 8-Series

Posted on July 17, 2026

Bring legendary **CEDAR** noise suppression directly into your **Sound Devices 8-Series** mixer-recorder.

For decades, CEDAR has been the industry benchmark for real-time, low-latency, and transparent noise suppression. Now, with the **CEDAR sdnx** plugin, you can reduce unwanted background noise and capture cleaner dialogue—without the need for external hardware.

SOUND  DEVICES

Special Offer | CEDAR sdnx for Sound Devices 8-Series

Key features include:

- Near-zero latency processing
- Industry-leading dialogue noise suppression
- Supports up to 8 simultaneous instances
- Apply to individual channels or buses
- Works at sample rates up to 96 kHz
- Compatible with Sound Devices 8-Series running firmware v7.40 or later

Previously, CEDAR processing required dedicated hardware such as the **CEDAR DNS 2**. The new **CEDAR sdnx** plugin brings this renowned technology directly into the 8-Series platform, making professional dialogue cleanup more portable than ever.

This special offer ends on Friday, 24 July 2026.
