

Studio LED X Series X4 Plus – LED Fresnel 150W Daylight

Combining the matchless features of the renowned QUARTZCOLOR Fresnel spotlights with the latest advances in LED technology, the STUDIO LED X SERIES PLUS range is more powerful and 30% to 60% brighter than before.

The high lumen density COB LED array allows true color reproduction and a pure, bright, and consistent white light. The Studio LED X Series PLUS ensures exceptional beam control and precision lighting. Less maintenance and spare parts required thanks to the lack of heat.
