Michael Broderick

In the right light at the right time everything is extraordinary - Aaron Rose

Join one of South African's finest lighting designers, Michael Broderick, at Mediatech as he presents a carefully orchestrated performance using one Robe BMFL fixture and a dancer. The fifteen-minute shows will be held every day from 15 to 17 July at 10:30am, 12:30am, 2:30pm and 4:30pm. While there is no cost, there are only limited seats per show. Book your place at the DWR Distribution stand (J47).

"We are trying to push the boundaries and wanted to see what we could do with a single fixture," said Michael Broderick. "The act consists of story which paints a picture of the relationship between the light and the graceful dancer, Belinda Henwood."

David Gouldie is the choreographer and director. He worked closely with Michael Broderick, who programmed the show a grandMA 2.
