

TPSA holds industry meeting on effects of the Covid-19 prevention measures on the industry

On Wednesday the 18th of March, the Technical Production and Services Association (TPSA) hosted a meeting at the Bryanston Country Club to discuss the way forward for the live events industry in the wake of recent COVID-19 containment measures imposed by the South African Government. These include an assortment of travel restrictions and, most critically, a 90-day ban on public gatherings of more than 100 people. The meeting, produced by MJ Event Gear and EFX Productions, was streamed to more than 900 live viewers on Facebook.

Sharif Baker, chair of the TPSA, described the situation facing the industry as “uncharted territory” and urged all stakeholders to “speak with one, strong voice” on the potentially disastrous impacts of the COVID-19 pandemic on local businesses.
