

tvONE C2-2855 Universal Scaler Plus

The [C2-2855 Universal Scaler Plus](#) is a compact and easy to use universal scaler, switcher and format converter. Living up to the name “universal,” the C2-2855 uses tvONE’s exclusive CORIO®2 scaling engine and can work with HDMI, Universal DVI, YC, YUV, YPbPr, and RGB inputs and outputs, along with the ability to store still images and logos.

Full bandwidth, 4:4:4 chroma sampling ensures faithfully reproduces high resolution colors across a wide range of resolutions ranging from 640x480 to 1920x1200 at 60 hz, making the C2-2855 ideal for almost any application or environment.
