

Ultimate Ear Premier, a new dimension of sound

# Ultimate Ear Premier, a new dimension of sound

Posted on April 25, 2023

Loaded with 21 drivers and a five-way crossover, UE PREMIER are our most powerful, nuanced and versatile in-ear monitors yet. Whether you're performing live on stage, recording in the studio, or listening to your favourite music in professional sound quality, UE PREMIER sets a new

## Ultimate Ear Premier, a new dimension of sound

gold standard for exceptional audio.

- Five-way crossover and 21 precisely curated and tuned drivers bring even the most intricate details of your music into focus
- Proprietary True Tone drivers and Knowles Super Tweeter extend the frequency range to 40kHz, adding warmth, richness and airiness to your music experience
- Dual mid-low diaphragm speakers and two dual sub-low speakers widen the frequency spectrum down to 5Hz for frequencies you can feel
- Excellent acoustic isolation rejects noise in any environment
- Custom, personalized fit stays secure and comfortable
- The waterproof connection system and SuperBAX cable provide lasting durability

*Best for Live performance, Studio, and Audiophiles*
