### What Vectorworks Users have to say:

"I use Vectorworks because it is a complete design solution which offers me great integration with

my MA2 lighting control system.” – **Joshua Cutts, Visual Frontier**

“Vectorworks is an all in one package from concept and design to presentation, with all the paperwork and worksheet your heart can desire.” – **Francois van der Merwe, Wizardry Group**

“The reason we use Vectorworks is for the powerful 3D Modelling and Spotlight Plugin. The 3D Modelling is extremely fast and easy to use. Spotlight is great for Lighting Designers; It has the ability to auto address lights, and create reports that contain a list of all the equipment used. My favourite features are the Duplicate Along Path and Extrude Along Path.” – Kevin Rieck, Head of Draughting, MGG
