Vectorworks Spotlight 2021 – Imagine it, Design it, Document it

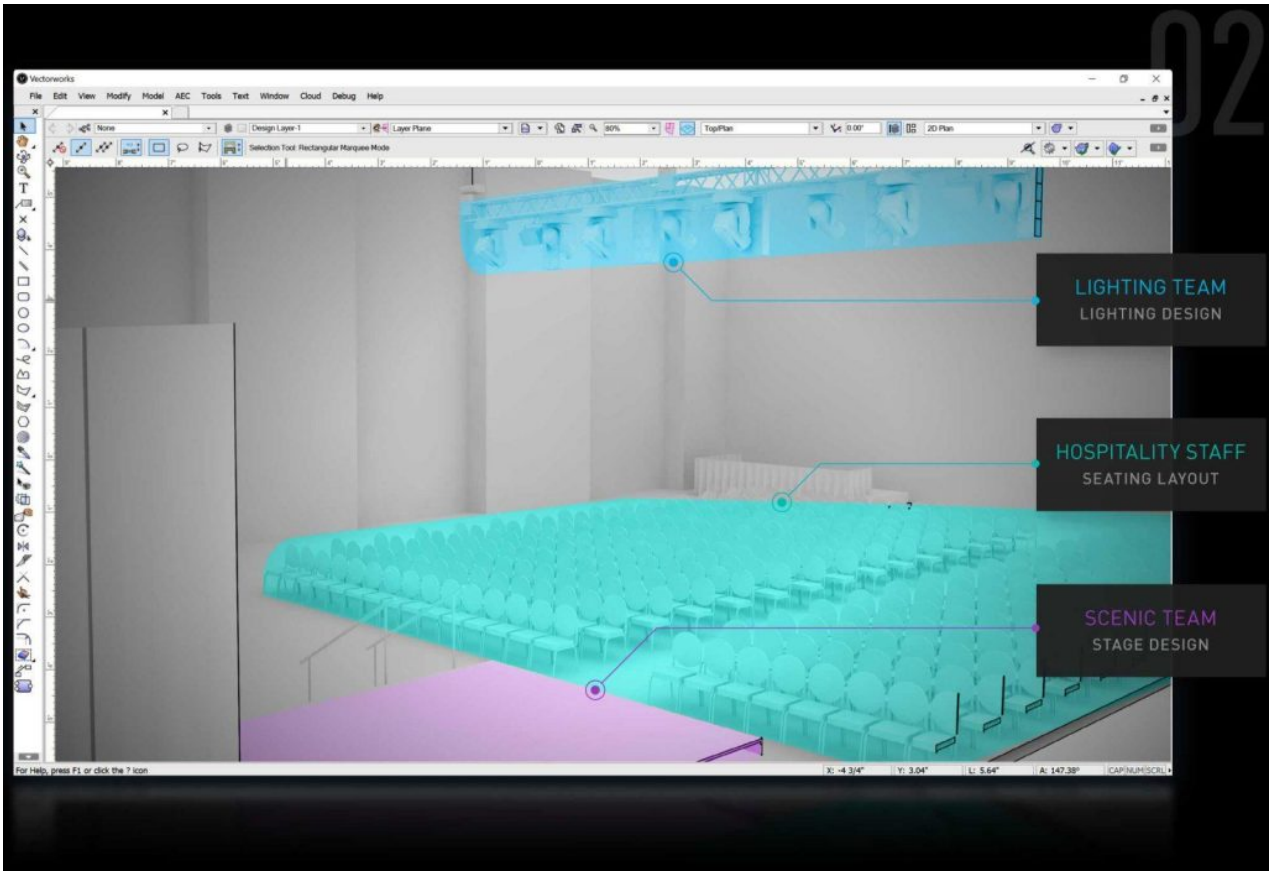

Posted on April 20, 2021

Sketch, model, and document your design ideas with precision drafting capabilities and the most flexible 3D modeling engine available, powered by SIEMENS Parasolid. Choose from a huge library of lighting, audio, video, scenic, and rigging manufacturer content, and create light plots and automate paperwork to meet tight deadlines.

Work with anyone

Vectorworks offers the most default import/export capabilities available, so you can incorporate design and technical production information from anywhere. Project sharing enables your entire team to work on the same Vectorworks file concurrently. And you can communicate through mobile viewing and sharing with Vectorworks Cloud Services rendering, storage, and file sharing.
