

# Warm Greetings from the Training Team

Posted on May 26, 2023

Happy Friday everyone!

DWR has a busy schedule planned for June, with courses in Johannesburg and Cape Town.

To those living in Durban, we have not forgotten you! Keep an eye out over the next few weeks for the Lighting Fundamentals and Lighting Design workshop announcements planned for July.

The exciting news is that DWR is working on a Basic Rigging Course that should also take place in July. We can't wait to share more info with you - it will be a bit different to how we usually do things, so watch this space.

## Warm Greetings from the Training Team

The industry has picked up with shows on the rise, so a big thanks to everyone who joins us at the training days. We hope that the skills gained help when working on site.

### **Telegram Training Channel**

DWR Distribution has a Telegram Channel dedicated to only share info related to training, events, open days and roadshows. To join kindly download the Telegram App (free of charge) and find us at: <https://t.me/+cMpkoyY15HAzMGM0>.

Thank you to everyone! Have a good weekend.
