Waves new CA3000-MX 16 & CA3000-MX 32

Waves is excited to announce the release of the CA3000-MX 16 and CA3000-MX 32 models.

Waves CA3000-MX is ideal for any single-room or multi-zone installation that demands stellar audio quality and advanced processing flexibility. Housed in a compact half-width 2U rack-mount chassis, CA3000-MX couples a powerful digital audio processing engine with an install-ready version of the industry-proven Waves eMotion LV1 mixer, supporting up to 32 stereo inputs, 24 stereo aux mix outputs plus L/R/C/M outs, and a 12×8 stereo matrix.

- ASIO-compatible (USB or Ethernet)
- Dante®-compatible (1Gb Ethernet port)
- Half-width, 2U rack- or surface-mount chassis
