

Welcome Daniel from MA Lighting

It has been such fun to get all the responses to our silly questions. Check out what Daniel Kannenberg, Technical Support at MA Lighting had to say:

Would you rather have a third eye or a third arm?

Having a 2 year old boy at home, both would be perfect. But if I have to decide I would take the third arm, so that I can stop him even if I don't see what he's doing ?.

What food would be the best to make a house out of?

Definitely the meat balls of my grandmother. They were so massive and compact....even a hurricane wouldn't destroy that house.

What's your favourite animal sound?

Here I have to go for two...first the sound of the elephant because it is just my favourite animal. And second, the sound of the whale. It is both, charming and so mystic...it is just amazing.
