

Welcome Frank from Quest!

Posted on July 2, 2019

Quest Engineering will have their own stand at this year's Mediatech Africa. We asked Frank Andrewartha

a few questions – he is clearly an animal lover!

Frank Andrewartha

Export Manager

What personality trait has gotten you in the most trouble?

Leaping before looking

What's the most courageous thing you've ever done?

Saved a girl from drowning when I was 17 (I can't swim). I decided it was a great way to meet girls. I still can't swim as I found it was safer to talk to them in the beach cocktail bar.

Which pet made the most impact in your life?

All my pets died tragic and untimely deaths. Though I do have a wild parrot that sits on my shoulder. Sometimes he brings his girlfriend and we all have dinner together.
