Doughty Truss Adaptor

Julian Chiverton

Julian Chiverton takes care of South Africa. He joined Doughty in 1995, having served a four year apprenticeship in Mechanical Engineering, then trained and worked as a Financial Adviser for four years. He knew that engineering was insufficient to keep him interested, but when the opportunity to join Doughty came along, it gave him the chance to combine his engineering and sales skills and take the company into new sectors – including entertainment technology! Julian took on the role of Sales Director in 1998.
